

BOUNTY DHOW RESTAURANT BOAT

Hello everyone. I am French Chef Steff, 57 years old, expatriate with my wife Emmy, since 2007 in South Africa and in Zanzibar, (Tanzania) 2016. The goal of this new destination on the island of Zanzibar: the project to build a large "DHOW", traditional wooden boat from this region of Africa and to make a restaurant; 45 feet, 30 seats, a 50m2 sail, assisted by 2 engines, equipped with a mini gas kitchen and assisted by solar panels for the bar fridges and a freezer. Having reached 70% of the project, in March 2022, "BOOM" I contracted Staphylococcus on my leg, which caused almost amputation. Stuck on the Island of Zanzibar and without insurance. I did all the treatments in Zanzibar,...18 months have just passed and of course without any activity. Finally I am operational again with my leg. I really need a helping hand to finalize this boat and find a professional activity again. The boat is sheltered on a beach on the east of the island, looking forward to its relaunch. This requires wood carpenters, mooring rope and licenses; 6 weeks are necessary. The "BOUNTY" boat will be anchored in a bay, customers will be able to get to the boat by small local boats.
