

CAGNOTTE

Claradventure

ENGLISH

Hi! If you are reading this that means you saw me doing what I love in the fabulous city of Paris, singing ! I started singing before talking and I learned with my grandpa with his piano. Music followed me during my entire childhood but it started to become a big part of my life when I began to busk in London. I discovered this feeling of being exactly where I need to be doing what I love. That's why I wish I could make it my job. Would you like to be a part of my journey? If you want to support me, you can follow my Instagram (@clarabudnik) or/and make a donation through this platform. All donations allow me to invest in professional equipment and then I would like to record in a music studio to make my own CD.

P-S : you can send me " I'm in your team" to be informed about the advancement of my journey !!

xoxo Clara
