

## Oliver needs help

guys! we need your help! Oliver is a stray dog that my brother and I rescued on the streets of a town in Colombia. He was sick and had a tumor in his mouth that we later learned it was a form of cancer. We were able to take him to the vet and he underwent chemo and healed ?? he was very brave and healed in no time with the care of the vet and my brother ?? unfortunately he was attacked by another dog last night and he's in a very bad condition, he's got lots of broken bones, bruises everywhere and he's slowly giving up ? which completely break our hearts ? we really want to help him again but we need your help! he deserves to live a good life after suffering on the streets his entire life. Anything you can donate will help a lot ?? THANK YOU
